

What is Oman's largest solar power project?

Commercial operations of Oman's largest utility-scale solar photovoltaic, independent power project, Ibri 2, started in January 2022. Oman Power and Water Procurement Company (OPWP) awarded the project to a consortium of Saudi and Kuwaiti firms, for which Beijing-based Asian Infrastructure Investment Bank (AIIB) loaned \$60 million.

Will Oman achieve net zero emissions by 2050?

Oman has committed to net zero emissions by 2050. The government is looking to expand its electricity-generation capacities through renewable independent power projects (IPP), with plans to derive at least 30 percent of electricity from renewables by 2030, mainly through onshore wind and solar projects.

How many electric vehicles will Oman have by 2035?

The Ministry of Transport, Communications, and Information Technology (MTCIT) announced in its 2023 plan that Oman will phase out fuel-operated vehicles and ensure that 79 percent of vehicles in the country by 2035 are electric. According to the ministry's estimates, Oman will have at least 22,000 new electric vehicles (EV) by 2040.
