

4 square solar panel price

How much do solar panels cost in the UK?

The most common type of system is the 4kW solar system, which costs between £5,000 - £6,000. It can save the average household about £660 per year, provided that they have a decent number of sunlight hours and are installed on a south-facing roof. In 2024, the price of solar panels in the UK can vary depending on several factors.

How much does it cost to install a solar panel?

Typically, installation costs make up around 20% of the price you'll pay for a solar panel system, which works out at £1,400 for a three-bedroom house. The price quoted for installing a system usually includes any associated labour costs.

How much does a solar panel cost per kilowatt?

Exactly how much a solar panel costs per kilowatt depends on the type of solar panel you're talking about. Monocrystalline solar panels are the most expensive, and their cost per kW is somewhere around £1,000 - £1,500, whereas polycrystalline solar panels cost about £900 per kW.

How much do thin-film solar panels cost?

When it comes to thin-film solar panels, these cost between £400 and £800 per kW. We will get you the best deal! The average cost of solar panels is £250 to £350 per m². Find out what costs are involved and what you can expect.

How much does a 3.5 kWp solar panel system cost?

A 3.5 kWp solar panel system would typically require around 10 solar panels (at 350 W each) and cost between £5,000 and £10,000. *kWp stands for 'kilowatt peak'. This is the amount of power that a solar panel or array will produce per hour in prime conditions.

How many homes in the UK have solar panels?

More than 1.39 million homes in the UK have solar panels, as of June 2024, according to government data. Solar panels not only save you money, but they can also earn you cash, all while helping to reduce the planet's carbon footprint. And they'll still generate electricity on gloomy days, which the UK experiences a lot of.

A solar panel system consists of solar panels, mounting hardware, inverters, conduit and other components such as electrical panels and monitoring equipment. When paired with a home battery like Powerwall, a solar panel system can better protect against grid outages, shield you from peak utility rates and enable you to power your home and electric vehicles off of sunlight.

In this guide, we'll explain the major factors that impact the final price of a domestic solar panel installation in the UK. This will include average costs, common install scenarios and how you can estimate the buyback
