

# 48v super capacitor energy storage

We'll give you detailed description of the solution along with technical specifications, as well as Supercapacitor 48v estimates to ensure you have the most efficient energy storage solution.

Product Feature Experience reliable and efficient energy storage with this high-capacity 48V super capacitor, designed specifically for residential applications, providing a dependable ...

Peak Current: 100A Safety Test : DC1500V Safety standards: QC/T 741 GB/T 34870 Application: Solar street light /electric tools/ telecom /vehicle energy system /microgrid energy storage etc. ...
