The potential for solar power in Tanzania is high. Approximately only 33% of the Tanzanian population has access to electricity. This combined with a continually growing population and expanding economy, the country has a large unexploited market. At the same time, Tanzania has abundant energy resources. These range from biomass and fossil ...

Sustainable access to safe water is critical to the health and economy of rural communities in Tanzania. In the past, many communities have seen water systems fall into disrepair because of high costs and limited capacity to maintain and repair them. Solar power is creating new opportunities to provide rural Tanzanians with safe, affordable water.

Tanzania has a solar power installed capacity of just 26 MW when its total installed power capacity is 1,605.86 MW, mostly coming from gas, hydro, and petrol. Tanzania's sunshine hours per year range between 2,800 and 3,500 with global horizontal radiation of 4-7kWh per m2 per day.

SOLAR AFRICA - Tanzania is a premier international trade exhibition targeting the East African solar market. The event is the only business networking trade fair that is dedicated to promoting products and services in the solar sector. ...
