How will a solar mini-grids project help Afghanistan?

An innovative solar mini-grids project will lay the foundations for Afghanistan's mini-grids market, with the aim of helping the country to reduce its greenhouse gas emissions while tackling rural energy poverty and supporting a green recovery amid the COVID-19 crisis.

Does Afghanistan have a rural energy poverty problem?

Afghanistan's rural energy poverty challenge In Afghanistan, decades of instability and war have led to widespread poverty and massive under-investment in infrastructure, including in energy.

Does Afghanistan have a mini-grid market?

The mini-grid market is currently almost non-existent in Afghanistan. The country's power sector policies and regulations are not in place to guide the development and operations of mini-grids by the private sector. This means necessary investments cannot take place, and scaling up access to clean energy cannot happen.
