

American Samoa industrial power packs

Does American Samoa have energy issues?

Although energy burdens pose a real challenge in American Samoa, the territory is working to advance energy justice. For example, the Territorial Energy Office provides home energy efficiency programs to help reduce energy costs for low-income households.

What is American Samoa's energy policy?

American Samoa is committed to leveraging these and other federal funding opportunities to advance its energy goals and priorities moving forward. American Samoa's energy policy landscape constitutes a blend of multilateral agreements, strategic plans, rules, regulations, and dedicated offices.

What fuel does American Samoa use?

Pacific Energy South West Pacific Ltd. and Sunrise Oil are American Samoa's fuel suppliers, and both operate facilities in American Samoa. There are three tankers running in the region that belong to Pacific Energy and Sunrise Oil. Fuel for American Samoa comes from Singapore with Busan, South Korea as an alternate provider if needed.

What is Tesla's Samoa powerpack project?

In Australia alone, Tesla is involved in the creation of an enormous Powerpack farm in Victoria, as well as the first installations in its proposed 50,000 Powerwall virtual power plant in South Australia. Overall, the Samoa Powerpack installations stand as the company's latest project situated on an island.

Does American Samoa have a geothermal energy plan?

The 2016 American Samoa Energy Action Plan identifies some geothermal resources, but none of these are viable for commercial electricity generation. The 2016 plan instead emphasizes the development of wind and solar power (Ness, Haase, and Conrad 2016). American Samoa is exploring opportunities for both offshore and onshore wind power generation.

Does Samoa have an emergency energy conservation plan?

1979: The U.S. "Emergency Energy Conservation Act of 1979" requires the submission of an emergency energy conservation plan by each state or territory (Public Law 96-102, as amended). American Samoa adopted its Emergency Energy Conservation Plan in 1982 (see Chapter 5, Annex A of ASCA 12 for plan details).

The American Samoa Power Authority (ASPA) is the territory's public utility and provides electricity, water, wastewater, and solid waste services to over 12,000 customers. The energy policy landscape in American Samoa constitutes a blend of multilateral agreements,
