All installations work can be performed by turbine OEM technicians, with Insensys remote training & support available. In standard operation the blade load data is incorporated into OEM turbine control algorithms, enabling blade pitch angle optimisation to increase turbine performance and reduce overall CoE.

Insensys Ltd has an overall rating of 4.4 out of 5, based on over 15 reviews left anonymously by employees. 81% of employees would recommend working at Insensys Ltd to a friend and 79% have a positive outlook for the business. This rating has improved by 4% over the last 12 months.

Due to rapid recent growth and strong forward customer demand, Insensys has leased additional facilities to enable us to continue our expansion. The new offices at Manor Court are 2 minutes walk from our existing Kingdom Close facility, and will house our Engineering, Finance, Management and business support functions.
