heavy-duty vehicles and transport applications. As a systems engineering specialist and Tier 1 integrator, Arcola addresses the deployment gap between rapidly evolving low-carbon technologies and efficient real-world applications by ...

La société britannique Arcola Energy va commercialiser une nouvelle plateforme de propulsion à pile combustible, conçue pour les utilitaires lourds. Prévue pour se substituer des moteurs diesels sur des camions, bus ou trains ; elle offre une modularité qui lui permet de trouver place dans de nombreux véhicules que les ...

La société britannique Arcola Energy, spécialisée dans les technologies de propulsion à pile combustible, a annoncé la commercialisation d'une nouvelle plateforme de propulsion à pile combustible PEM (Proton Exchange Membrane) conçue pour les utilitaires lourds. Cette plateforme est conçue pour se substituer des moteurs diesels sur des camions, bus ou trains ; elle offre une modularité qui lui permet de trouver place dans de nombreux véhicules que les ...

"Combining an efficient electric powertrain with the high energy density of hydrogen, Arcola's HFC A-Drive platform readily delivers twice the practical range of battery-only solutions. This enables fleets to work a full day of heavy-duty service on just one 10-minute hydrogen fill," said Dr Ben Todd, CEO of Arcola Energy.
