

Will Iran become an energy importer?

Years of mismanagement and false priorities threaten to turn the country into an energy importer. Iran has one of the biggest reserves of natural gas and crude oil in the world, holding the second-largest proven gas reserves and fourth-largest proven crude reserves.

Is Berkeley Energia plc a forward-looking company?

Berkeley Energia Plc |© Copyright reserved. - Privacy Policy Statements regarding plans with respect to the Company's mineral properties are forward-looking statements. There can be no assurance that the Company's plans for development of its mineral properties will proceed as currently expected.

Who is Berkeley Energy corporate solutions?

Berkeley Energy Corporate Solutions (" BECS ") has been established by Berkeley Energy with the ambition of becoming the market leading provider of energy and decarbonisation solutions to commercial and industrial (" C&I ") customers in Africa. BECS works closely with C&I customers to understand their energy needs.

What does Berkeley Energy do?

Berkeley Energy works with its partner companies to provide engineering, management, and financial support, whilst offering the ability to act as a bankable sponsor for renewable power projects. Our approach is hands-on, asset-first, technically orientated. We look to achieve our returns by holding equity in well-conceived and constructed projects.

Does Iran rely on natural gas?

While neighboring countries like Turkey have tried to diversify their energy mix -- balancing coal, natural gas, oil and renewables -- Iran relies overwhelmingly on natural gas. Over 95% of Iranian households are connected to gas pipelines, an infrastructure focus that analysts consider misguided.

What makes Berkeley Energy unique?

Berkeley Energy's technical and operational capabilities are complemented with dedicated financing, legal, and structuring professionals with experience in private equity, infrastructure, and renewable energy transactions.
