In Addis Ababa, Ethiopia (latitude: 9.026, longitude: 38.7439), solar energy generation is quite favorable throughout the year due to its tropical climate and consistent sunlight exposure. The average daily energy production per kW of installed solar capacity varies by season, with Spring yielding the highest output at 7.22 kWh/day and Summer producing the lowest at 5.42 kWh/day.

The solar battery market is constantly expanding, and more companies are looking to cash in on the increased demand. With a solar battery and a solar panel system, you'll typically save \$669 on your energy bills. The upfront cost is high, however, putting the technology out of reach of thousands of UK households who would benefit.

6 ???#0183; Discover the best battery options for your home solar system in our comprehensive guide.
