Photo: Peter Denton - CC BY-SA. Not everyone in Bosnia wanted to be independent. There was a part of Bosnia that did not want to secede and instead wished to remain part of what remained of the Yugoslav Federation. Bosnia's Serbian bloc resisted the independence movement and initiated what would become a civil war in Bosnia.

Bosnia and Herzegovina is a country in Southeast Europe on the Balkan Peninsula. It has had permanent settlement since the Neolithic Age. In the early historical period it was inhabited by Illyrians and Celts. Christianity arrived in ...

Out of all Bosnia and Herzegovina's coal power plants, Ugljevik's emissions caused the most days of asthmatic symptoms in children, with over 12,000 days in 2020. This is equal to 48 per cent of all such impacts from the country's coal power plants which are included in the National Emissions Reduction Plan.

Ethnic map of Bosnia and Herzegovina according to 2013 census. More than 96% of population of Bosnia and Herzegovina belongs to one of its three autochthonous constituent peoples (Serbo-Croatian: konstitutivni narodi / ?????????????? ??????): Bosniaks, Serbs and Croats. The term constituent refers to the fact that these three ethnic groups are explicitly mentioned in the ...

Tito sought a balance of power that did not privilege any group over the others, but this system calcified ethnic boundaries and fed resentment. His death in 1980 left a power vacuum which was exploited by politicians who began to build blocs of support based on ethnic identity. Bosnia-Herzegovina was the most ethnically diverse region of ...

NATO conducted its first major crisis response operation in Bosnia and Herzegovina. The NATO-led Implementation Force (IFOR) was deployed in December 1995 to implement the military aspects of the Dayton Peace Agreement and was replaced a year later by the NATO-led Stabilisation Force (SFOR). SFOR helped to maintain a secure environment ...

In the narrow sense, the so-called "Bosnian Crisis" (or "Annexation Crisis") of 1908 and 1909 was a political conflict between Austria-Hungary and the Ottoman Empire caused by the (formal) incorporation of Bosnia and Herzegovina into the territory of the Dual Monarchy. In a broader sense, the "crisis" stands for the impact of this incorporation on the most important ...

The initial plan was for the plant to be built by the China Power Engineering and Consulting Group Corporation (CPECC). China Development Bank representatives were present at the signing of an agreement between CPECC and the Republika Srpska authorities, indicating that the bank may be interested in financing, however this was never confirmed and media reports indicate ...

Dabar is a 160MW hydro power project. It is planned on Trebisnjica river/basin in Nevesinje, Bosnia and Herzegovina. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the under construction stage.

Bosnia and Herzegovina Power System 20 RES installed capacity and production since 2000 After the war in Bosnia and Herzegovina, two large hydro power plants were built, HPP Pec Mlini and HPP Mostarsko blato. Their total installed capacity is cca 90 MW. Independent investors have built 1 TPP "Stanari" of 300MW installed power.

Since 2006, Bosnia-Herzegovina has been a party to the Energy Community Treaty, which requires all members to abide by certain EU legislation in the energy sector. This meant that while developing the Stanari

project, Bosnia-Herzegovina was obliged to adhere to the EU Large Combustion Plants Directive, which regulates emissions limit values ...

Bosnia and Herzegovina is a self-sufficient, net exporter of electricity. However, its energy sector relies mostly on fossil fuels, in addition to hydro and a negligible level of renewables. Bosnia and Herzegovina is well endowed with renewable energy resource potential; however, the sector is still in its initial stage of development. ...
