

Does modular routers have a vacuum module?

Modular Routers has a vacuum module! It picks up in a 6 block radius, so we also put 3 range upgrades in it to extend that range to 9, which is how far away the other side of the chicken coop is. The MK1 Sender module in this case is very simple and just sends items straight into the storage chest.

What is modular routers?

Modular Routers offers a wide range of possibilities to enhance your gameplay. In this spotlight, we'll explore the core mechanics, practical applications, and advanced configurations of the Modular Routers mod, helping you unlock its full potential and take your Minecraft experience to the next level.

What is a router module?

Modules are the instructions on what to do. A router can have up to 9 of them and they get executed in sequence on each item in the buffer. The simplest Router function is to pull from an adjacent inventory and send items in a straight line to another chest.

How do modular routers work?

Modular routers work the same way. Therefore when you configure a module, you specify what direction it operates in. To put fuel in a furnace with an MK1 sender, you'd need the router above the furnace with the sender pointing down.

What is a Modular Router block?

The Modular Router block is essentially the container for the items that do all the work -- modules, upgrades, and augments. It sits in the world and interacts with it based on what you put inside it. Here's the inside of the Router. It has three main sections: Buffer - The router can hold up to a stack of a single item.

Is modular routers a good mod?

Modular Routers is a brilliant mod that has a relatively small number of craftable items for everything it is capable of. Here's the full set of items. We'll go through all of these in this post.

Tried using modular router with an activator module, but for some reason, it doesn't work? Have tried with many different items in the buffer slot to use, but for whatever reason none have worked- have watched multiple guides on how to use them, followed their instructions and setting for the module, but it has not performed a single right click with the item in the buffer slot...

Modular Routers 1.14.2-5.0.0-1 (Forge) 0.67MB 5 years ago. Share to ... Clear Energy Distributor Module (or any of them) jdbhkf opened this issue 2 years ago · 1 comments. jdbhkf commented 2 years ago.

Describe the feature. It would be nice to have a key or something to be done that would clear all settings on a module. Wrench or really anything.

Me and my friend want to use modular routers to send fluid dto generators and stuff, but we need an item that can hold fluids in the buffer slot for that. I dont think we have any mods that can do that tho. (we have loot belts, drawers, ssn, create, modular routers, ispawners, building gadgets, iron generators, waystones and vault compass). are ...

Tried using modular router with an activator module, but for some reason, it doesn't work? Have tried with many different items in the buffer slot to use, but for whatever reason none have worked- have watched multiple guides on how to ...

modular-routers-1.16.5-7.5.1-69. Describe your problem, including steps to reproduce it. When changing out the target of a Sender Mk 2 or Distributor (breaking the target block and replacing it), sometimes the router ...

modular-routers-1.16.5-7.5.1-69. Describe your problem, including steps to reproduce it. When changing out the target of a Sender Mk 2 or Distributor (breaking the target block and replacing it), sometimes the router "remembers" the old one and continues to send it ...

If you dislike having cables everywhere and want a lot of machines in one area to be charged wirelessly, you could look into Modular Routers. You can designate up to 8 machines per Energy Distributor Module, and each router can hold 9 Energy Distributor modules, allowing for one router to charge 72 machines within 40 blocks.

As the title suggests, I need help with what to do with augments for modular routers. I'm specifically talking about "Range Up Augment", but I can't seem to figure out how to add this to my item router. I see a spot for modules and one for upgrades, but they don't seem to want to go there, any suggestions would be nice <3

Minecraft 1.16.5 Forge 36.1.3 modular-routers-1.16.5-7.4.0-55 Sender, Distributor, and Puller modules all respect sidedness and appear to only use NSEW. With MK1 modules this can be solved by placing the router adjacent to the desired si...

Modular routers I'm trying to make the router i'm looking at only transfer items when it can deliver one to every, so one doesn't end up having more than the others, which would break my contraption. ... Game isn't running right now, so I can't look for myself, but does either the Distributor module, (or whatever you're using to get items INTO ...

As of Modular Routers 12.0.2, the mod is built with Neoforge. While Modular Routers is likely to remain compatible with Forge for now, future compatibility is not guaranteed in any way; Player Module and Sender Module Mk3 now respect a dimension blacklist, dimensions which those modules cannot send items to or from

I love the modular Routers Energy Distr. module, it works on most things, but ran into a bump in the road. I am trying to use it with Thermal machines, like the pulverizer and instead of getting ...

Those modular routers are the secret. Two stacks of energy upgrades and 15 energy distributor modules to send energy wirelessly to the drills and stasis chamber. Drills are fully upgraded (T2 Eff, T2 Proc, T2 Speed) and Laser Base has 3xT2 Proc and T2 Eff. On top are Nitro Thermo Generators from Powah on top of Blocks of Nitro Crystal.

The subreddit for all things related to Modded Minecraft for Minecraft Java Edition --- This subreddit was originally created for discussion around the FTB launcher and its modpacks but has since grown to encompass all aspects of modding the Java edition of Minecraft.

Modular Router to Distribute Power. By putting an Energy Upgrade on a router, we can turn it into a battery. There are further upgrades that can allow it to hold more power ...

What's a use-case for energy puller modules? It's easy to pipe energy into a router via pretty much any mod which handles energy. Will consider a direction toggle for the distributor. Guess ...

The only solution I have found is to use quantumentangleporters (idk how to spell them) to pair one of the fluid/gas inputs with energy but this is isn't exactly the best of solutions. Edit: nevermind found out you can use modular routers energy distribution module to do exactly this.
