Brunei is targeting 30% renewable energy in total power generation mix by 2035, with 200 MWp of solar energy by 2025. The launch event also saw the release of Hengyi's 2023 ESG Report, which highlights their ...

It's always a risk, but especially these years. For anyone interested, read the study by Scott McIntosh on solar cycles, his way of predicting solar cycles is far more accurate and logical than the ways NASA has been using. They're basically guessing. According to Scott, the solar cycles are tied to the sun's magnetic pole reversals.
