Praia, Cape Verde - On Thursday, July 18, 2024, the United States government, through the U.S. Agency for International Development (USAID) and Power Africa, in partnership with the Government of Cabo Verde and the private sector launched a clean energy solar mini-grid plant located at Ch#227; das Caldeiras in the Santa Catarina do Fogo Municipality.

Cape Verde aims to get 50% of its electricity from renewable energy resources by 2030 and 100% by 2050. This coincides with aims to bring down energy import costs and help the environment by reducing greenhouse gas emissions. The country has integrated wind and solar in its energy system. It also has the potential to utilize emerging technologies as ocean thermal energy conversion.
