Here is a link to a discussion thread I started on the Escapees RVNetwork forum about the complete build out of my system and here is a link to the description of the system locally on my website. We were served very well by that system, but I am always looking to the future. In late 2021, I decided to upgrade the solar array.

The 500W solar system can be used in cities where electricity is available but power cuts are frequent. It is like a small power plant that can run a peak Load of up to 650 Watts. A 500 Watt off-grid solar system is designed to give power supply for 4-5 hours to 2-3 BHK homes in India having an unreliable electricity s
