Mounting Guide . After full assembly of the enclosure, the next step is to choose the right mounting accessory for your application. Each mount accessory has a mark indicated by a capital letter, as shown in Figure 11, and each WisBlock Unify Enclosure has several fixed positions, which are indicated by a mark of numerals, as shown in Figure 13. The medium-sized ...

Adapter mount to install RAK Wireless 19003 mini baseboard to enclosure with 5mm grid hole pattern. Also includes adapter for 2000mah flat pack battery and Waveshare solar controller (D version). The onboard solar charging on the RAK boards is functional, but the Waveshare solar controller uses better MPPT, shows battery status at a glance, and overall a nice controller for ...

RAKBox-B2 Enclosure with Solar Panel is rated IP67 for outdoor Industrial IoT Application for the WisBlock Embedded System. **\*\*This enclosure will NOT fit the Nebra Miner\*\*** Mechanical Characteristics. Dimensions W x L x H: 95mm x 65mm x 58mm; Weight: approximately 7.45oz (211.2g) Material thickness: 3mm; Pole and wall-mounting: 60~75mm pole diameter

The Rak Wireless Unify Enclosure IP67 150x100x45mm is a great box for meshtastic solar node but I needed a better way to mount the enclosure. The mounts they sell work well enough but had the box at a straight 90 angle to the antenna mast.

The RAK enclosure doesn't have straight walls, so if you drill a hole for an N connector the antenna is not straight. | Download free 3D printable STL models ... Sloped spacers to align an N mount on the RAK Wireless Wisblock solar enclosure. See screenshots for instructions. The one that goes inside is slightly different from the one that goes ...

This is a RAK Wizblock enclosure designed to be made as a MagSafe adapter for an iPhone which is powered off a cable from the USB-C iPhone (this is a feature only of the iPhone 15 and newer). This model is designed specifically for the USB Micro on the RAK board, but I've made the opening larger to accommodate the USB-C model as well.

Built a RAK Wireless solar enclosure node Built a small solar node using the Meshtastic starter kit. I like the small form factor of the RAK solar enclosures. Let's see if the small solar panel can keep this thing charged. Here's a video if you want to check it out: <https://> ...

RAK Unify Enclosure With Mounting Plate and Solar Panel quantity. Add to cart. Description Specification Reviews The Unify Enclosures are modular IP67 rated outdoor enclosures that include tailored features to support WisBlock Base Boards and WisBlock Modules, but are highly adaptable to any application with spacious internals and thoughtfully ...

A practical minimum enclosure size is 100x120x36mm. The front and back parts slide onto the carrier and are secured in place with (4) M2.5x4 or M2.5x6 screws. Use (4) M2.5x4 screws to secure the RAK. Use (4) M2.5x8 screws to secure the MCSBC-SVR. The carrier mounting holes are centered at 60x40mm and should fit most off-the-shelf enclosure plates.

The Unify enclosure with solar and antenna plate is an IP65-rated modular outdoor enclosure designed specifically for WisBlock base boards and modules. It offers spacious interiors and versatile mounting options to adapt to different applications. The enclosure has an integrated solar panel in the lid that can be connected to the WisBlock base boards via a suitable cable. This ...

RAK Wireless Solar Unify Enclosure IP67 150x100x45mm. While not a 100% turn-key solution, this one is much easier to put together if you're not wanting to do one of our full solar builds. This build requires a WisBlock, Battery, Antenna, and cable. All of which are linked below.

Low Cost Harbor Breeze Solar Light RAK Enclosure Hack The Harbor Breeze Solar LED light can be purchased for about \$15 and includes a capable solar panel, lithium ion cell and charge controller in a waterproof enclosure. The RAK baseboards fit ...

Those are for holding the enclosure to the solar panel. In early iterations I made a design change that made it impossible to get a wrench under the enclosure to hold the nuts. The carriages slide under the lip of the panel, underneath each hole. Then you can screw down the enclosure without needing a wrench to hold the nuts.
