

Commercial wind turbine for sale Taiwan

Where can I buy wind turbines from China?

You can buy wind turbines from China by contacting the suppliers on Made-in-China.com, a B2B platform for global buyers. Many of the suppliers on this platform offer flexible quantities, so you may be able to purchase just one.

Where are wind turbines located in Taiwan?

Most of the wind turbines were located in the western coast area of Taiwan Island and Penghu Archipelago. The population of Taiwan is over 23 million, but the area of Taiwan is only 360 thousands km² and most of the area, about 70%, is mountain and sloping field. It is not easy to find a suitable place for establishing wind farm without protest.

How many wind turbines are there in Taiwan?

There are more than 564 MW of wind power installed in Taiwan by the end of 2012. 60 MW of wind power is expected to be installed in Taiwan in 2013. Most of the wind turbines were located in the western coast area of Taiwan Island and Penghu Archipelago.

When will Taiwan's offshore wind farm be built?

Construction of the offshore wind farm began in November 2020. The project is expected to be completed in 2024 and is estimated to generate approximately 2.4 TWh of clean energy a year, which will be sufficient to power 605,000 Taiwanese homes. Spanning approximately 82 km², the offshore wind farm is located 8 km off the west coast of Taiwan.

Where can I buy a wind turbine?

Wind Turbines are offered for sale in a variety of formats: Contact info@windturbines.com for pricing and information. We work with some of the largest turbine owners and wind farms in the world to remarket their assets as part of our end-to-end [Re]Commissioning process.

Where can I find a wind turbine marketplace?

A larger reach and great business opportunities All relevant marketplace processes are will take place mainly on wind-turbine.com. You can log in with your user data as usual and place your search and sales advertisements for free and without limitation.

Hi-VAWT is a manufacturer, producer and installer of vertical axis small wind turbines (VASWT). The company is located in Taiwan but, as their products have been proven to be among the best in the world, they now have clients in many different countries. The company website states "Think for next generation. Living with nature. Hi-VAWT for the future."
