

Corvus energy bergen Venezuela

What makes Corvus Energy unique?

Technological excellence in combination with Maritime DNA has made Corvus Energy pioneers in their field with the highest number of installations worldwide. We believe the combination of clean fuel and fuel cells together with batteries is the solution to reach the goal of zero emissions by 2050 for the marine industry.

Why did Toyota invest in Corvus Energy?

This investment will provide Corvus with even fuller access to Toyota's cutting-edge expertise in both fuel cells and battery technology, strengthening Corvus's ability to bring innovations to a rapidly evolving industry. Corvus Energy is the leading supplier of zero-emission solutions for maritime, offshore and port applications.

Is Toyota a good partner for Corvus Energy?

Toyota is in the forefront of the development and is by far the best partner for us to make this a success," Geir Bjerkeli, Corvus Energy CEO, commented.

Bergen, Norway January 15, 2023 - Corvus Energy, the world's leading provider of zero-emission solutions for the maritime industry is pleased to announce that the Company is awarded funding for the integration of ammonia cracker ...

Bergen, Norway 20.06.2024 . Corvus is pleased to share that the company has received the prestigious Norwegian Technology Award 2024 (ESS) for maritime, offshore and port applications. Corvus Energy offers a full portfolio of energy storage and fuel cell systems, suitable for almost every vessel type, providing power systems in the form ...

Bergen, Norway January 15, 2023 - Corvus Energy, the world's leading provider of zero-emission solutions for the maritime industry is pleased to announce that the Company is awarded funding for the integration of ammonia cracker technology with their Pelican Fuel Cell system.. The project, titled "APOLO", is a collaboration between several partners and aims to solve the ...

On October 6 th Corvus Energy, the world's leading producer of battery systems for the ocean space, opened a brand-new test area for hydrogen fuel cells at their production site in Bergen, Norway.. As part of the H2NOR project, Corvus is going full blast with the development and production of sustainable, large-scale maritime-certified hydrogen fuel cell systems, with ...

The Corvus Orca ESS is ideal for applications that need both energy and a high amount of power, moving large amounts of energy at an inexpensive lifetime cost per kWh. The Corvus Orca is suitable for both hybrid electric and all-electric marine applications and for use in the Corvus BOB, an all-in-one, installation-ready battery room solution.
