

Who is Das Singapore?

DAS Singapore celebrates 10 years as a leader in environmental technology for the semiconductor and solar industries in Southeast Asia, highlighting successful partnerships and a strong, diverse team.

Where can I find Das energy PV modules?

All currently available DAS Energy PV modules can be found in the DAS Kraftwerk webshop. Not every roof is dependent on light photovoltaic modules - DAS Energy also offers conventional glass modules for photovoltaic projects in every size and performance class. 12x2M project module - specially designed for standing seam rooftops

How many megawatts a year does Das energy produce?

In the process, the technology is constantly being further developed in the research and development center. The production capacity is currently 55 megawatts per year. DAS Energy founder and CEO Christian Dries has a background in the aviation industry, having founded Diamond Aircraft and running the enterprise successfully for many years.

How can Das energy modules be installed?

DAS Energy modules can be installed in a variety of ways and affixed with glue, screws, rivets, magnets or grommets on all types of roofs and facades. Our experienced specialists support you from the first consultation to the installation of your photovoltaic system and accompany you on the way to your clean energy solution.

What are Das energy modules used for?

DAS Energy's modules are ideal for mobile homes, campers, boats, tents and electric vehicles such as golf carts - areas where conventional glass modules are out of the question due to their heavy weight. DAS Energy's modules can also serve as a stand-alone power source for street lighting, surveillance cameras, parking meters, etc.

DAS Solar, established in August 2018, has swiftly become a national high-tech enterprise that exemplifies innovation in the photovoltaic industry. DAS Solar is deeply involved in the development, manufacturing, and sales of high-efficiency solar cells and photovoltaic modules, as well as the comprehensive management of power plant projects.

Die DAS Energy Ltd. mit Hauptsitz in Wiener Neustadt ist ein Forschungs- und Entwicklungszentrum und eine Produktionsstätte für Photovoltaik Module mit einer Produktionskapazität von 55 MWp pro Jahr.
