

The acoustic emission (AE) technique is one of the unconventional methods of partial discharges (PD) detection. It plays a particularly important role in oil-filled power transformers diagnostics ...

5 ???&#0183; China aims to add more than 100 GW of new energy storage (primarily battery storage, excluding pumped hydro) by 2027, according to a new action plan presented by authorities on ...

10 ????&#0183; The silent workhorses of our modern world, from electric vehicles to smartphones and grid-scale energy storage, are batteries. Yet, beneath their quiet exteriors, these power ...

Lithium-ion battery technology has been widely used in grid energy storage for supporting renewable energy consumption and smart grids. Safety accidents related to fires and ...

This study fosters deeper integration of acoustic energy harvesting within sensor infrastructures. Effective synergy between acoustic energy harvesting and sensing technology ...

7 ????&#0183; The project has been fast-tracked via Victoria's Development Facilitation Program. Image: Trina Solar (LinkedIn). Chinese PV module manufacturer Trina Solar has received the ...
