Where can solar power be developed in Egypt?

Utility-scale PV development has, thus far, clustered around Aswan in the south of the country, where solar resources are strongest and there is plenty of land for development. The biggest chunk of Egyptian solar capacity is provided by the Benban project, which lies 50 km from Aswan and is one of the world's biggest PV sites.

How much solar power does Egypt have?

The biggest chunk of Egyptian solar capacity is provided by the Benban project, which lies 50 km from Aswan and is one of the world's biggest PV sites. Official figures on its capacity vary from 1.4 GW up to 1.8 GW, with the confusion apparently centering on the scope for expansion of some individual elements.

Is Egypt's first hybrid solar-plus-battery project?

Norwegian developer Scatec ASA has signed a 25-year power purchase agreement (PPA) for a 1 GW solar array and 100 MW/200 MWh battery storage project in Egypt. CEO Terje Pilskog says it is Egypt's first hybrid solar-plus-battery project.

Will Elite solar build a solar manufacturing hub in Egypt?

EliTe Solar, a global manufacturer of PV cells and modules, has unveiled plans for a solar manufacturing hub in Egypt. The company announced the investment venture, worth over \$150 million, following discussions with Egypt's Prime Minister, the Chairman of the Suez Special Economic Zone, and the Chairman of Chinese conglomerate TEDA.

What is Egypt's energy mix?

The resulting revenue, combined with falling PV component costs has changed the landscape of Egyptian energy economics. The latest figures published by Egypt's New and Renewable Energy Authority (NREA) indicate the country's power generation mix is currently 80% thermal, 12% wind, 6% hydro, and 2% solar.

Is Egypt a good place to invest in solar energy?

Egypt has plenty of land and high solar yields, "making renewables highly competitive against other sources of energy," the Scatec spokesperson said. But the main limiting factor is the high cost of financing as a result of rising global interest rates, they added.
