

Ellies lithium battery Sudan

How many volts is a Ellies battery?

The TotalVolt on both batteries is 13.53V, and slowly creeping up. and the Ellies is still charging them, eventually get to 14.43V/14.36V on the two batteries and they've stopped accepting a charge but the Ellies is still going.

What kind of batteries do Ellies fbic3000va/24v inverter use?

I have a 24V 3000KVA Ellies FBIC3000VA/24V inverter (manual attached) which originally ran 4 x 12 volt 105ah Calcium Lead Acid Batteries, however, these batteries are now finished. I would like to replace these batteries and thinking of two options: My question is, which do you think is the better option (the batteries are similar in price).

Will securi-prod 100Ah lithium battery work with Ellies inverter?

I was reassured by the team at GW that the drop in Securi-Prod 100Ah lithium battery will work with my Ellies inverter provided I keep the charge settings at 10amp. All went well for about 4 weeks until this Sunday. Loadshedding started and nothing from my inverter. It was dead, no lcd screen, no fan, no power

Will a lead acid battery work with my Ellies 720w /1200va inverter?

Replaced the lead acid battery in my Ellies 720W /1200VA Inverter trolley this December. I was reassured by the team at GW that the drop in Securi-Prod 100Ah lithium battery will work with my Ellies inverter provided I keep the charge settings at 10amp. All went well for about 4 weeks until this Sunday.

What's the difference between a Ellies battery and a BMS?

Now the BMS on one battery shows 100% state of charge, but the Ellies is still happily going for it, its display toggling between 3 and 4 bars. The other battery shows 98% soc. The TotalVolt on both batteries is 13.53V, and slowly creeping up.

Are Li Batteries A drop-in replacement?

GW are also at fault here for pushing this BS story that Li batteries are simple drop-in replacements on LA inverter charger systems. They are not. GW should be able to help you verify that the battery is still okay before you spend any more money on looking for a charger. Typical supplier response!

I purchased 2 x Blue Nova Lithium batteries to replace the lead acid type. These will be used on a 24 v inverter. On reading the instructions the BN batteries have to be individually charged first with a 12 V charger. I have a 12 V Ellies charger as well, which I have now used to charge the batteries separately before they get dropped into the 24 V inverter.

Specialist in Lithium Battery Power(LFP) Solution/Solar Energy System - Sales specialist · As a professional Sales specialist, based on the principle of "Customer first integrity first& quot;, helping control quality and prompt delivery established solid relationships with worldwide customers and buyers. To provide customers with quality assurance products. · ???? : ...

The battery has a 3 month limited warranty and should ideally not be cycled below 50% depth of discharge. Excessive cycling of the gel battery will lead to the battery needing replacement often.
