

What is Mozambique's rural electrification strategy?

Mozambique's state-owned utility, EDM has developed a strategy as well (often referred to as the Rural Electrification Strategy) to ensure the development of the energy sector in Mozambique and drive its growth as an important market in the Southern African region . These initiatives are based on Sustainable Development Goal (SDG) 7.

What is Mozambique's integrated power sector master plan?

The Integrated Power Sector Master Plan from EDM is the main policy for Mozambique. It has a set goal to increase installed capacity to 6,001 MW by 2030 and 20% integration of renewable energy in the grid. The institutional, financial and technical approach to reach these goals is defined by the National Electrification Strategy (ENE) .

What is the legal instrument for electrification in Mozambique?

The prevailing legal instrument for electrification in Mozambique was the Electricity Law from 1997 (Law n.º 21/97) which has been updated in July 2022 to Law n.º 12/2022 to reflect the current social, technical and financial dynamics in Mozambique, with a emphasis on renewables.

What are some important energy policy documents?

Another important energy policy document that states the needs of energy access for the population and the productive sectors is Mozambique's Energy Policy from 1998.

What are the main objectives of the energy policy?

Some of its main objectives are to promote economically viable programmes for the development of energy resources, ensure reliable energy supply, and to improve energy access in the domestic sector .

Mozambique starts construction on first solar energy storage IPP Globeleq, Source Energia and Electricidade de Moçambique (EDM) have started construction on the first IPP in Mozambique ...
