

Storage tanks are a necessary part of each cogeneration and regenerative power supply system. Those energy systems like shown in Fig. 1 have become very popular for large but also small ...

This bibliometric study examines the use of artificial intelligence (AI) methods, such as machine learning (ML) and deep learning (DL), in the design of thermal energy storage ...

In these systems, the recovered heat is typically used to heat water that is stored in a hot water storage tank for domestic use. The use of a thermal energy storage (TES) system enables the ...
