

The Mono-PERC range stands out with a larger watt capacity compared to other PV modules. It excels in low-light situations, such as cloud coverage and shade, thanks to its advanced light absorption capabilities. The advanced cell structure, featuring rear-side passivation layers and advanced front-side contact designs, minimizes energy loss and improves electron collection, ...

The enerSol Lithium storage solution has been specifically designed to meet your energy storage needs within the Residential, Small Scale Commercial and Telecoms industries with proven compatibility with most major inverter brands. ...

Now we incorporated more efficient technologies, a high voltage module range tailored for water pumping applications, and a complete set of battery solutions: AGM Gel, Lead-Carbon, and Lithium. Today, our dedicated team of experts works tirelessly to expand our offerings, encompassing inverters, mounting systems, and accessories in our catalogue.
