Trust Solar Hub for high-quality, sustainable solar energy solutions directly linked to distribution networks. Choose Solar Hub for your utility-scale solar farm needs and harness the power of solar energy today.

Fiji is embarking on a project to bring solar power to its remote islands. It starts by creating tenders for mini-grid construction, and employing tools to customize energy systems for each community ensuring each community"s needs are met. The project is building bridges with local communities and has received very positive feedback.

In a historic collaboration that signifies a powerful stride toward a more sustainable and eco-conscious Fiji, two visionary entities - Tourism Fiji and Solar Hub - have united under a shared mission to forge a future that marries ...

In 2021, Solar Hub emerged with a mission to illuminate a sustainable future by providing top-notch solar solutions in New Zealand, Fiji, and the Pacific islands. With a team of 200 dedicated individuals, Solar Hub offers custom-designed solar systems, Solar Farms and EV Charging.

With solar panels and an inverter, you can capture the sun"s energy and convert it into usable electricity for your home or business. If you add battery storage to your system, you can store excess energy generated during the day and use it at night or during bad weather.
