5 ???· Snout71 wrote: Mon Dec 16, 2024 3:56 pm I currently have 6kw system with 7 x HV2600 batteries but I need extra battery storage I need basically another 18kw but was thinking of installing another 6kw system on another roof but using either ECS or EQ batteries (future proofing) but will I be able to link the batteries in parallel or do I have to install batteries of the ...

As we know the HV2600 battery is being updated to include a new comms chip (due to chip shortages) which means that a BMS upgrade is required to use V2 batteries going forward. FoxESS are running an RMA process to replace free to charge any customers who have a V1 BMS or HV2600 and now require a V2 BMS due to adding extra V2 HV2600's.
