

Frames a plug power company Kuwait

Why did Plug Power acquire frames group?

The acquisition of Frames Group added engineering, process, and systems integration expertise to Plug Power, enabling the company to scale the delivery of green hydrogen solutions.

What will plug power do with frames?

The Frames acquisition will support Plug Power's goal to reach an installed electrolyzer capacity of three gigawatts (GW) by 2025. Plug will combine its world-class stack technology with Frames' systems integration capabilities to deliver a range of turnkey electrolyzer solutions from one megawatt (MW) containers to 1,000 MW standalone plants.

Who is Plug Power?

Plug Power Inc. (NASDAQ: PLUG), a leading provider of turnkey hydrogen solutions for the global green hydrogen economy, completed the acquisition of Frames Group, a leader in turnkey systems integration for the energy sector.

Does frames have a relationship with Plug Power?

Frames' relationship with Plug Power goes back to 2017. "We are delighted to become part of the Plug Power organization," said Frans Roozendaal, CEO of the Frames Group. "There is a great cultural fit and alignment between our teams, which we have developed over the years as partners.

What revenue opportunities will frames have from Plug Power?

Revenue opportunities from the acquisition include an order backlog valued at approximately EUR100 million and a sizeable project pipeline that will generate revenues through 2023 with major on-shore and off-shore energy providers seeking to transition to renewable energies and green hydrogen. Frames' relationship with Plug Power goes back to 2017.

Power in Kuwait is 220V/50hz. U.S. Power is 120V/60hz. Most all computers and electronics are rated for 120/240v 50/60hz, so all you need is a physical adapter because the actual plugs are different. Kuwait uses the UK style plugs. Just look on the power supply brick on the cord, and you should see the 120/240v annotated.
