

Gibraltar Berner safety cabinets

Why did Berner choose Claire #174; Safety Cabinet?

The Claire #174; safety cabinet from Berner was nominated for the award Bundespreis ecodeSIGN. The elimination of the use of plastic in production, the automatic switching to energy saving mode when not in use, and the reduction of power from 500W to 85W and noise levels have all contributed to minimize the environmental impact. Fraunhofer Clean!

Is Berner safe cabinet a Fraunhofer clean?

Fraunhofer Clean! Berner safety cabinet was awarded the 3rd place by the Fraunhofer Institute. Claire #174; is especially energy saving with regard to the substantial reduction of working costs, simultaneously Claire #174; offers the same high efficiency.

Why should you choose Berner international safety cabinets?

Safety cabinets from Berner International meet the highest quality requirements and are subjected to an extensive test program before delivery to the customer. From product development to manufacturing to commissioning in your laboratory - quality "Made in Germany".

Why should you choose a Berner liquid handling station?

Together for more safety in the laboratory - the integration of the BRAND Liquid Handling Station in a Berner safety cabinet of the Claire #174; series leads to a unique combination. New standards for safety and design - you will never be satisfied with a standard safety cabinet again.

Where are safety cabinets made?

We set standards for your safety in the lab. With our research, development, production and distribution of products and services for personal and product protection, we offer premium quality - made in Germany. Safety cabinet sale! #169; Copyright 2024 Berner International GmbH - All rights reserved.
