The new OrionBMS from Ewert Energy Systems provides fast, reliable and affordable battery management for lithium ion batteries. It includes standard management features such as under-voltage and over-voltage protection, as well as more advanced features such as internal resistance calculation, current limit calculations and fan control.

Ewert Energy manufactures Orion BMS, which is a Lithium Ion (Li-Ion) battery management system (BMS) that is specifically designed to meet the tough requirements of protecting and managing battery packs for electric vehicles (EV), plug-in hybrid (PHEV) and hybrid automotive vehicles (HEV).

of 12 cells in series.

An Ewert Energy Systems, Inc Product. The Orion BMS is designed and manufactured by Ewert Energy Systems, Inc which is a research & development company focusing on developing solutions for plug-in hybrid and electric vehicles. Ewert Energy provides custom solutions as well as off the shelf components.

The Orion Jr. 2 BMS by Ewert Energy Systems is designed to manage and protect Lithium ion battery packs and is suitable for use in stationary energy storage and small mobile applications such as golf carts and material handling equipment.

Ewert Energy Systems is located in Carol Stream, Illinois, and was founded in 2011. At this location, Ewert Energy Systems employs approximately 10 people. This business is working in the following industry: Electrical installation.

The Orion BMS 2 by Ewert Energy Systems is the second generation of the Orion BMS. The Orion BMS 2 is designed to manage and protect Lithium ion battery packs and is suitable for use in electric, plug-in hybrid and hybrid electric vehicles as well as stationary applications. Major key additions in the Orion 2 BMS are:

The Orion BMS Connect is an internet based remote monitoring system that enables monitoring battery packs through a web browser, smartphone, or tablet. When the Orion BMS Connect device is used with a WiFi connection, this ...
