Engie has been hired by Guam's state electricity utility to build two solar-plus-storage plants with a combined capacity of 50MWp/300MWh on the Micronesian island. The firm scooped up the project duo in the third round ...

Forum on May 2017 at Hyatt Regency Guam. STATE ENERGY PROGRAM On April 28th, GEO sponsored a tour to Dandan Solar Farm for GovGuam officials. Guam Power Authority's largest renewable project is the solar farm in the south consisting of 121,792 panels spread out over 160 acres of land to produce 25.65 MegaWatts of clean, emission-free energy

Until 2015, only a few off-grid photovoltaic systems (PV) and some distributed generation PV and small wind turbines are in use on the island. Plans for several large solar farms have been announced. Guam has adopted a renewables policy that requires the reduction of fossil fuel consumption by 2020 to 20% less than the rate in 2010.

Solar energy offers a sustainable, renewable, and abundant power source for the island of Guam. Solar power is mainstream, and with a Federal Tax Credit of 30%, the time is now to invest in a solar system that will lower your power bills, increase the value of your home, and reduce greenhouse gas emissions.

In 2015, Guam's first commercial solar PV facility--the 26-megawatt Dandan solar farm with more than 120,000 solar panels--began operating. 56 The facility can generate enough electricity to serve an estimated 10,000 homes. 57 The 60-megawatt Mangilao solar farm came online in 2022, and the planned 41-megawatt Malojloj solar farm is scheduled ...
