

Guinea nordex group

What is the Nordex group?

The Nordex Group offers customers worldwide technically and financially sustainable multi-megawatt onshore turbines for every wind strength and climate zone. We are providing solutions for markets with both limited grid availability and limited land availability.

Who makes Nordex wind turbines?

As one of the world's largest wind turbine manufacturers, the Nordex Group offers high-yield, cost-efficient wind turbines that enable long-term and economical power generation from wind energy in all geographical and climatic conditions. With the Delta4000 platform, the Nordex Group relies on tried-and-tested series-production technology.

Where is Nordex made?

Nordex SE is a European company that designs, sells and manufactures wind turbines. The company's headquarters in the German city of Rostock while management is in Hamburg. Nordex produces at sites in Germany, Brazil, India, Mexico and Poland and Spain. The main production facility is located at the headquarters in Rostock.

What services does Nordex offer?

The Group concentrates on developing and producing complete systems, including the control software as well as the main core components, and on offering related services. Services rendered by Nordex for a specific project range from the mere delivery of the wind turbines to turnkey construction of a complete project (Turnkey contracts).

Is Nordex a Chinese company?

However, the Company continues to be represented in China, particularly on the purchasing side. From a technical perspective, Nordex is focused on developing wind turbines for onshore sites that allow operators to produce environmentally friendly electricity at the lowest possible cost (Cost of Energy - COE) in their respective regions.

Does Nordex operate in the offshore wind energy sector?

For strategic reasons, Nordex does not operate in the offshore wind energy sector. Offshore wind turbines and projects differ significantly from their onshore equivalents, particularly in technical terms. In addition, the onshore segment represents well over 90% of the global wind energy market.

German wind turbine-maker Nordex Group has registered earnings before interest, taxes, depreciation and amortisation (EBITDA) of EUR48m (\$52.12m) for the third quarter of 2023 (Q3 2023), versus a EUR27m loss in the ...
