

Haiti group1 battery

What battery does Group1 use?

Now back in his native Blighty, he serves as Managing Editor in Europe. The majority of our portable electronic gadgets, and the new wave of e-transportation, are powered by lithium batteries. Group1 has developed a more sustainable alternative, and has now launched the world's first 18650 potassium-ion battery.

Is Group1 launching the world's first 18650 lithium-ion battery?

In a noteworthy advancement, Group1 has launched the world's first Potassium-ion battery that has been designed within the widely utilized 18650 cylindrical form factor. "We are excited to introduce the world's first 18650 Potassium-ion battery," stated Alexander Girau, Chief Executive Officer of Group1.

What is Group1's new lithium-ion battery?

Group1 unveiled its new Potassium-ion battery at the USA's annual 'Beyond Lithium-ion Conference', which seeks to explore the future of energy storage which goes beyond current conventional Li-ion batteries.

Who founded Group1?

Group1 was co-founded in 2021 by battery tech veterans, including Leigang Xue who currently serves as Chief Product Officer but previously worked in the lab of 2019 Nobel Laureate and battery pioneer Dr. John Goodenough at University of Texas at Austin - who co-invented the Li-ion battery.

Group1, a leader in advanced battery technology, proudly announces the release of the world's first Potassium-ion battery (KIB) in the cylindrical 18650 form factor. Group1's KIB technology offers ...
