DPSP APAC 2025 will connect industry specialists, academic researchers, and business leaders across the Asia Pacific to discuss emerging issues and innovations in power system protection. Our venue for the conference is the Hong Kong Polytechnic University, and we will have three IET journals working with us on this conference.

Wind power aside, HK Electric also built one of Hong Kong's largest, commercial-scale solar power systems in Lamma Power Station in July 2010. The 1-MW system is the first-of-its-kind using thin-film photovoltaic panels, which is more cost-effective than other conventional modules in sub-tropical regions like Hong Kong.
