

How much does a pumped storage hydropower station cost per kw

For the 2022 ATB, we use cost estimates for a 1,000-MW plant, which has lower labor costs per power output capacity than a smaller facility. O& M costs also include component costs for ...

NREL gives a range of \$1999 to \$5505 per KW for pumped hydro CAPEX cost. If using just four hours of energy storage capacity as is typical for lithium ion systems that would mean a cost ...
