

How to handle the photovoltaic panel warranty scam

Are free solar panels a scam?

Free solar panels are indeed a scam. This deceptive marketing tactic is often used to promote solar leases and power purchase agreements (PPAs), which come with long contracts and monthly payments that escalate over time.

What are the most common solar panel scams?

Here are some common solar panel scams to look out for. Fake solar companies: Perhaps one of the most common solar scams involves creating a fake company and "selling" solar panel systems without any intention of ever installing them. These fake companies may request a large upfront deposit and then disappear before ever completing any work.

How do I avoid solar panel scams?

Getting multiple quotes and thoroughly vetting installers is the best way to avoid solar panel scams. You can also use solar.com to compare quotes from our network of thoroughly vetted installers.

How do I know if a solar company is a scam?

Be wary of solicitors. Always verify the identity and credentials of anyone claiming to represent a solar company. Unscrupulous solar companies may employ aggressive or dishonest sales tactics to close deals quickly, especially if the proposed solar installation isn't in your best interest.

Are 'free solar panel health checks' a scam?

We're regularly contacted by customers, who have received an unsolicited call or letter from another company, offering them a 'free solar panel health check' or warning about their solar PV system being at risk of failing. This is a common scam.

How do I know if a solar salesperson is fraudulent?

Select one of our top three recommendations from the panel below to get started on your solar journey safely: High-pressure sales tactics, exaggerated promises and claims of "free" solar panels are three major red flags to look out for when determining if a solar salesperson is fraudulent or misleading.

In some cases, solar panel warranties will also cover solar inverters, micro inverters, wiring and even mounting racks and solar batteries in some cases. However, not all manufacturers include these items. The typical solar panel warranty includes the panel only and may include the internal micro inverter if there is one.
