

Are Chinese battery producers planning to increase investment in Hungary?

Photo: Xinhua Chinese battery producers have planned to increase investment in Hungary amid pragmatic cooperation between the two countries, with the latest example being EVE Power, which plans to build a plant in Debrecen, a city in eastern Hungary.

Does EVE Power make batteries in Hungary?

EVE Power is not the first Chinese battery maker to choose Hungary as a production base in Europe. In 2022, CATL, which makes one-third of the world's electric vehicle (EV) batteries, invested 7.34 billion euros (\$7.6 billion) to build a battery plant for carmakers in Hungary.

Will Hungary become a 'great power' of battery production?

By the end of the decade, the factory will be churning out 100 gigawatt hours (GWh) of battery capacity each year. This would be enough to equip a million cars (based on current EV capacities) and make Hungary one of the main manufacturers in Europe -- in line with the government's plans to become "a great power" of battery production.

Will Hungary become a key producer of electric vehicle batteries?

Hungary wants to become a key producer of electric vehicle batteries. Government spending has attracted investments, including a new Chinese gigafactory.

Does Hungary have a battery industry?

Hungary's recent successes in battery production and discussions on the progress and means to make the industry a success took center stage. In terms of battery production capacity, Hungary ranks third in the world and fifth when it comes to exporting the technology.

Who was the Honorary Patron of Hungary's battery industry?

Minister of Foreign Affairs and Trade Peter Szijjártó, who opened the event, was the honorary patron. Hungary's recent successes in battery production and discussions on the progress and means to make the industry a success took center stage.
