How many power companies are there in Zambia?

There are three power producing and distribution companies in Zambia; (a) Zambia Electricity Supply Corporation Limited (ZESCO), a government-owned company (b) Lunsemfwa Hydro Power Limited and (c) Ndola Energy. ZESCO, the largest of the three owns and maintains 94.7 percent (2306/2434) of installed hydropower capacity, as of 2016.

How much electricity does Zambia have installed?

Zambia has 2,800 MW of installed electricity generation capacity, of which 85% is hydro based. The country's installed electricity capacity is 2,800 MW. National access to electricity averages at 31% with 67% of the urban and 4% of the rural population having access to power. The Government of Zambia (GoZ) set a goal for universal electricity access for all Zambians by 2030.

How does Zambia's Electricity Market work?

Zambia's electricity market is structured as a single-buyer market, with ZESCO acting as the sole off-taker and bulk retailer of electricity through the national grid.

Does Zambia have a solar power plant?

Maamba Collieries Limited operates Zambia's largest IPP, a coal-fired thermal power plant commissioned in 2016, which can generate up to 300 MW. Zambia's installed solar capacity is 89 MW.

Does Zambia have a private sector?

Although the power sector in Zambia is dominated by the state-owned utility ZESCO, there are pockets of private sector activity in generation, transmission, and distribution. The sector is opening up to new IPPs for on-grid and off-grid transactions.

What are the main hydroelectric power stations in Zambia?

Zambia's main hydroelectric power facilities are the Kariba North Bank Power Station (1,080 MW), Kafue Gorge Power Station (980 MW), Kafue Gorge Lower Power Station (750 MW), Victoria Falls Power Station (108 MW), Lunsemfwa Hydro Power Station (56 MW), and the Itzhi Tezhi Hydro Power Station (120 MW).
