

Diesel generators are used in many countries and for different applications. The main driver for their use, however, is the lack of energy access and unreliability of supply. As in the case of ...

Overview Sources Energy resources Experiments with hydrogen as a fuel Education and research See also Bibliography External links In 1905 a power plant was set up in Hafnarfjörður, a town which is a suburb of Reykjavík. Reykjavík wanted to copy their success, so they appointed Thor Jenssen to run and build a gas station, Gasstæði Reykjavíkur. Jenssen could not get a loan to finance the project, so a deal was made with Carl Francke to build and run the station, with options for the city to buy him out. Construction started...
