When I co-founded Ineco in 2016, I transitioned from a commercial property / IT background to focusing on sustainability. My interest in sustainable energy began three years earlier while serving as a governor for two Cardiff schools facing budget pressures, where I developed change strategies and deployed sustainable solutions.

Given the sizeable buildings housing Whitchurch Primary School, and the associated energy bills, Ineco

within the industry. In total we will benefit from savings of around \$225,000 and our solar generates 48% of our energy which will save over 500 tonnes of carbon dioxide.

"Ineco successfully delivered a project installing 640 panels on our factory. There were no issues, they were supportive before, during and after the project and there were no surprises. ... "Investing in Solar PV helped us to benefit from clean and affordable energy on site. We have been incredibly impressed with the clear communication from ...

O& M Manager Our Operation & Maintenance (O& M) managers are responsible for ensuring optimum performance for our projects. Scheduling planned preventative maintenance and liaising with clients about reactive maintenance issues.

To mitigate this risk, Ineco Energy works with an independent structural engineering firm that has qualified and competent third-party structural engineers that assess all our projects. These professionals perform detailed site surveys assessing all the relevant factors and evaluating the impact of the proposed PV system with detailed calculations.
