original. to the manufacturer Mettler Toledo

HI70300L is a storage solution prepared with reagent grade chemicals that can be used to ensure optimum performance of your pH and ORP electrodes. It is necessary to store a pH electrode in a solution in order to keep the glass membrane of the pH electrode hydrated. Ideally a storage solution should be used; never store an electrode in distilled or deionized water. The Hanna ...

Storage Solution InLab™; MSDS. Sold by: Labex Pty Ltd. Available Soon. Part #: 6.264 638
Manufacturer #: 30111142. Estimated shipping time: Contact us via live chat or via contact us page. R 1 013,72. Add to cart. Request a quote. Product overview. Storage solution for ph and ORP electrodes.

Cabinets and units are manufactured in-house with a range of options and variations to satisfy any storage needs. Setting the industry standard in laboratory quality, we only use the most robust construction methods and don't cut corners e.g. our melamine range consists of 16mm melamine throughout, no cheap backer boards.
