

Douglas council is to start producing its own sustainable solar energy. The local authority has approved funding for a solar farm to power some of its facilities. The generation facility would be built in Braddan and have a life span of around 20 years. It's thought the savings will mean it'll effectively pay for itself within five to seven years.

Proposals for the very first utility-scale solar farm on the Isle of Man have been released by designer Peel Cubico Renewables (PCR). The 26MW Billown Solar Farm in Malew, near Castletown, would certainly produce enough power to fulfill more than 5% of the Isle of Man's power demand, when functional in 2024.

It gave the figures in response to a Freedom of Information request about personalised plates. The DOI says it hasn't paid to put such plates on public transport vehicles since 2015, but pays an annual fee to keep one registration that isn't used on a vehicle. It also says it doesn't own one cherished plate being used on a public transport vehicle.

The new sizes are 79mm high x 44mm with 11.5mm stroke (which appears on the Ellan Vannin type plates with the 3 legs symbol on) or 79mm high x 50mm, with 14mm stroke, which is used on plain plates. What is the minimum size of character on a number plate?

Why are Solarscopes filters from Isle of Mann so expensive? - posted in Solar Observing and Imaging: In my quest to purchase another H-alpha solar filter I came across filters from Solarscopes located in the Isle of Mann. I was shocked at the prices. Looks like you can purchase a Lunt 100mm for the same price as a 50mm filter from Solarscopes.

"The solar farm would generate enough power to meet more than 7% of the Isle of Man's current electricity demand and support the Government's aim for electricity on the Island to be 100% green by 2030." The project represents an investment of around £30m across the 40-year anticipated life of the project, with no public investment.

The Isle of Man is one of the most unique destinations you could choose to visit in the United Kingdom. This

Isle of Man best solar plate name

small island in the Irish Sea is a self-governing "Crown Dependency," and technically, it's not even part of the UK. Catch a ferry or flight from the mainland, and you'll soon discover that the Isle of Man has a history and culture apart from the rest of Britain.

Air Source Heat Pumps A highly recommended heat pump manufacturer and popular choice with our customers is Mitsubishi. For a typical 3 or 4 bedroom property in the Isle of Man we would install a heat pump out of their EcoDan range, an 11.2kw Ashp complete with a 200L cylinder would cost approximately £12,500, this includes installing and decommissioning of existing ...
