Douglas council is to start producing its own sustainable solar energy. The local authority has approved funding for a solar farm to power some of its facilities. The generation facility would be built in Braddan and have a life span of around 20 years. It's thought the savings will mean it'll effectively pay for itself within five to seven years.

"The solar farm would generate enough power to meet more than 7% of the Isle of Man's current electricity demand and support the Government's aim for electricity on the Island to be 100% green by 2030." The project represents an investment of around £30m across the 40-year anticipated life of the project, with no public investment.

Proposals for the island's first solar farm have been unveiled, with the company behind it saying it could generate 5% of the island's electricity needs. The plans for the farm in Malew are being brought forward by Peel Cubico Renewables. As well as unveilings its plans for the 84 acre farm, the Peel Cubico is [...]
