

The Victron Quattro is the larger inverters in the Victron range. It has 2 x AC inputs for typical connection for grid and generator further on it has same features as the Multiplus. Model: VIC-QUATTRO-48-15000-200-100-100 Charge current house battery: 200A Operating Voltage: 48V Auxiliary output: 50A Rating: 12,000 W Power Factor: 1 AC inputs: 2 Weight: 94 kg Quattro ...

Compatible with a wide range of lithium-ion and lead-acid batteries. Mobile App for monitoring. IP65 rated. Automatic switching from grid-tied to off-grid mode. Zero export power capability 16 x units can be paralleled in a single installation Essential and non-essential loads outputs. Wi-Fi dongle (for remote monitoring) and CT-clamp as standard.

Established 20+ years ago Electrilabs focuses on UPS- and Solar Power Systems, Electrical Works and Data centre and Telecoms infrastructure with precision cooling, IoT with environmental -and system monitoring and generators. We cater for all Design, Integration, Installation, Commissioning and Maintenance Services.

The SRV10KI is a versatile, high-quality, cost competitive UPS developed to handle a wide voltage range and inconsistent power conditions, delivering the quality millions of IT professionals around the world trust. Ideal for IT professionals in small to medium businesses, Easy UPS Online provides basic power protection in unstable power conditions, ensuring consistent and reliable ...

HR 1234W (9AH) is specially designed for high efficient discharge application. Its characteristics are high energy density, small footprint and high discharge efficiency. It can be used for more than 260 cycles at 100% discharge in cycle ...

HR 1234W (9AH) is specially designed for high efficient discharge application. Its characteristics are high energy density, small footprint and high discharge efficiency. It can be used for more than 260 cycles at 100% discharge in cycle service. Up to 5 years in standby service.

Latest NANO Technology with super deep cycle design and excellent deep cycle discharge. Strong recovery ability from deep cycle discharge. 12 Year Design Life. Current Capacity 200AH/12V Dimensions 329mm*171mm*215mm Weight 29.5kg Terminal Type M8 NANO Gel Technology 12 Year Design Life

22, 27 and 42U 600 x 800 Deep Cabinet with Fans & Shelves (Flat-Pack)- 4 fans- 4 adjustable feet and castors- Flat shelves- Material: seamless steel board- Good ventilation and heat dispersing- Powder coated to protect against rust, oxidation, scratches, lacquer peeling- Framework - high strength steel with a 500kg weight capacity- Side panel can be easily ...

HR 1221W is specially designed for high efficient discharge application. Its characteristics are high energy density, small footprint and high discharge efficiency. It can be used for more than 260 cycles at 100% discharge in cycle service. Up to 5 years in standby service.

This 5KVA system makes provision for self-sufficiency with minimal need of utility power is equipped with a 100A/250VDC MPPT Victron Charge Controller and 10KW/h Sunniva Lithium batteries combined with a 5KVA Victron Power Plus ...

Extended-run battery systems provide flexible runtime to critical Smart-UPS applications. NOTE: Electrilabs can Repack your existing Battery Modules/Catridges with new high performance CSB batteries for the fraction of the price. Best quality. Quick service. APC Smart-UPS RT 192V Battery Pack Includes: Installation guide, User manual Warranty 2 Years

CEO/Founder of Electrilabs (Pty) Ltd · Electrilabs is a fully-fledged Turn-Key Solutions Provider focused in the design, integration, installation, commissioning and maintenance of solutions that is right-sized for our customers& #39; needs.& lt;br& gt;& lt;br& gt;These solutions include UPSs, electrical reticulation by our own certified electrician/s, Data centre infrastructure such as, ...

The 1150K provides complete protection against reduction of sulfuric acid. Preventing electrolyte losses by collecting and returning liquid to the reservoir. Consistent starting performance. High durability achieved by adoption of special wrought lead calcium grids.Low resistance envelope seperator. Extremely low rate of self discharge. Capacity 105AH/12VDimensions ...

Electrilabs (Pty) Ltd. | 64 followers on LinkedIn. Electrilabs is a fully-fledged Turn-Key Solutions Provider of all forms of Backup Energy. | Electrilabs was established 20+ years ago in South Africa with our initial focus being UPS service and maintenance. Our company gradually evolved into a fully-fledged Turn-Key Solutions Provider focused on the design, integration, installation ...

Our Technicians are trained and qualified to repair various makes of UPS"s. Carry-in repairs are done at our workshop in Midrand, South Africa. Faulty units are diagnosed, repaired and then placed under strain to ensure that it will be working perfectly once leaving our workshops.

During development projects, large attention is given to cost price, reliability and low maintenance. These aspects, combined with their long life, give micro turbines the most competitive TCO (total cost of ownership) of all small-scale ...
