Who is Hanwha Power Systems?

Hanwha Power Systems launched its energy equipment business, building on its reliable technology and longstanding experience in gas turbine engines. Since then, we've become a global powerhouse and have delivered more than 7,500 units of air and gas compressors worldwide.

Why should you choose Hanwha Power Systems?

In addition, we will grow as a global leader in power and energy solutions by using future engineering technology that helps the green environment. Hanwha Power Systems is a global powerhouse delivering advanced air and gas compressors worldwide with a goal of accelerating the transition to clean energy.

Will Hanwha convert LNG carrier propulsion system to ammonia gas turbine?

SEOUL, South Korea, Sept. 19, 2024 /PRNewswire/-- Hanwha Power Systems, a total energy equipment and marine solutions company of Hanwha Group, signed a memorandum of understanding (MOU) with GasLog to convert its LNG carrier propulsion system to an ammonia gas turbine at Gastech 2024 held in Houston on September 19.

How will Hanwha Power Systems and GasLog work together?

Following the signing of this MOU, Hanwha Power Systems and GasLog, as strategic partners, will continue their collaboration focusing on performance, economic and compliance assessments from a comprehensive perspective to promote the application of ammonia gas turbines in vessel retrofits.

How can Hanwha help reduce emissions and achieve net zero goals?

A range of green shipping technologies, from alternative fuels and propulsion systems to energy efficiency measures, is essential to cutting emissions and achieving net zero goals. Hanwha is at the forefront of this transformation, with a comprehensive roadmap for carbon free shipping.

Are hydrogen fuel cells a key part of Hanwha's vision for Fossil-Free Shipping?

Additionally, hydrogen fuel cells are a key part of Hanwha's vision for fossil-free shipping. Hanwha Aerospace's hydrogen fuel cells recently received Approval in Principle (AiP) from the Korean Register of Shipping, validating the safety of its fuel cells for maritime use.
