

Longi 660W photovoltaic panel

What is Longi high-efficiency solar module?

LONGi High-efficiency solar Module, widely adopting PERC solar cells technology, Half-cut Module Technology and Bifacial PV technology, Mono Silicon Crystalline Technology has become a leading manufacturer and brand in the export and installation of monocrystalline silicon solar photovoltaic module.

Is Longi a leader in crystalline silicon photovoltaics?

The achievement has firmly established LONGi as a leader in crystalline silicon photovoltaics - the company is now the twin world-record holder both for efficiency in crystalline silicon solar cells and for efficiency in crystalline silicon-perovskite tandem solar cells.

Did Longi break a world-record for silicon solar cell efficiency?

Madrid, Spain, May 7th, 2024 - LONGi Green Energy Technology Co. today announces that the company has broken another world-record for silicon solar cell efficiency only 4 months after it last set a world-record in this area.

Why should you choose LONGi Solar panels?

High efficiency modules supplied by LONGi have been applied widely across the globe from grassland on high lands, deserts, water ponds to households. The solar modules benefit customers and local economies with high value advantages of greater efficiency, lower light degradation and higher reliabilities.

Does Longi have a second generation BC panel?

"Longi's first-generation BC products were primarily positioned for the rooftop market, but the second generation of BC is entirely different," the company said in a statement. "The Hi-MO 9 panel is mainly positioned for the ground-mounted utility market."

Is Longi based on hybrid passivated back contact (hpbc)?

Chinese solar module manufacturer Longi has unveiled a new module series based on its proprietary hybrid passivated back contact (HPBC) cell technology. "Longi's first-generation BC products were primarily positioned for the rooftop market, but the second generation of BC is entirely different," the company said in a statement.
