I LumoS 8 X 16mm PURPLE LED Neon Strip Light comes with a 12V Lead as standard, which can be used directly with a 12V system or can be connected to a 12V DC to 230V AC transformer for primary use but can also be controlled by any LED compatible Light switch including I LumoS Touch On/Off and Dimmer Light switches.

Questions 1. What is a Gang? 2. What is a Way? 3. What is an intermediate switch? 4. How does the I LumoS Touch switch work? 5. Does the I LumoS Switch Illuminate? 6. How Do I Dim an I LumoS Touch Dimmer? 7. How Does the Touch 2 Way Switch Work? 8. How do I work out my gangs and ways? 9. Can a dimmer and on/off 2 way w

Pitcairn: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO<sub>2</sub> - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.

Lumos offers clean, affordable solar power to a market of 1.3 billion potential customers who live off the electricity grid. Lumos enables people to replace hazardous and expensive kerosene generators and lanterns with modern solar electricity that can power lights, cellphones, fans, computers, TVs and other small electronic devices (all at once, every day).
