Lunar Energy. Brilliantly designed. Endless clean energy With 20 kWh of battery capacity, the Lunar System provides more energy for longer outage protection. It's the new standard to handle your home's growing energy needs. Lunar tracks severe weather to prepare your home for an outage.

What is a lunar system & how does it work?

It's the new standard to handle your home's growing energy needs. Lunar tracks severe weather to prepare your home for an outage. If your home is in the path of a storm, the Weather Watch feature will fully charge your battery and leave it there until the storm passes. When the grid's out, the Lunar System steps in.

Can Luna S1 be used in water?

*LUNA S1 is not intended for use in water. Please keep it away from water sources during daily uses. The high-strength cabinet resists up to 5T of pressure, strong enough to withstand even an unexpected external crush or impact in a garage. It is formidable from the inside out. *Severe impact affects the stability of the ESS.
