

# Luxembourg solid power battery

Solid Power shares popped today after fellow solid-state battery maker QuantumScape (QS-4.33%) announced some game-changing news. As of 2:45 p.m. ET, Solid Power shares were higher by 11.2%.

2 ???&#0183; In recent years, Ford has invested heavily in a company called Solid Power, a solid-state battery manufacturer. Many believe that solid-state batteries - which don't use the liquid electrolyte found in conventional lithium-ion batteries, can be lighter, offer greater energy density, and provide more range at a lower cost - are critical to the future development of all-electric ...

Solid Power's current electrolyte and future R& D chemistry is designed to outperform competing sulfides. Solid Power's core sulfide-based solid electrolyte technology uses earth-abundant materials. We expect to scale electrolyte production to power 800,000 electrified vehicles using our all-solid-state battery cells annually by 2028.

Clean-room contractors work inside the pre-pilot production line being built by battery technology company Solid Power in their Louisville headquarters and photographed on Thursday, Dec. 13, 2018. The bank of blue devices at center are for coating solid electrolytes into batteries, a cutting-edge alternative to the liquid electrolytes present ...
