

How has Macao changed its energy structure?

Since 2005, Macao adjusted its energy structure and began to increase the share of imported electricity; as a consequence, indirect GHG emissions, mainly embodied in imported electricity, grew steadily and quickly exceeded direct emissions in 2008 and finally reached a record high of $2.35E+06$ t CO₂e. in 2010.

How much energy does Macao use?

The results show that the Macao's energy consumption and its related GHG emissions were 32,700 Terajoules (Tj) and $3.70E+06$ t CO₂e. in 2010, increased by 31.10% and 100.34% over those of 2000, respectively.

Is natural gas a problem in Macao?

As a member of the Smart Energy Group of UM's State Key Laboratory, which focuses on optimising clean energy use and production, Zhang believes expanding the use of natural gas poses major problems, especially in the city's older districts. "Many buildings and [much of the] infrastructure in Macao are outdated.

Can Macao achieve net zero emissions by 2050?

To curb climate change and reach net zero emissions by 2050, countries and regions around the world are rushing to cut fossil fuels and boost clean energy usage. As a commercial hub, Macao faces the same challenge.

How can Macao improve energy consumption?

Energy consumption improvement activities by various users. Because of Macao's tropical climate, the largest energy consumption for buildings is from air conditioning systems, and consequently the average air-conditioner temperature settings is the key measure for reducing electricity use.

Does industry contribute less to Macao's economy?

In general, industry contributed less and less to Macao's economy during the study period. Energy consumed by industry decreased from its high of 1682 Tj in 2003 to 939 Tj in 2010. Energy consumed by other sectors changed from year to year, and only accounted for small proportion of total consumption.

With free, publicly available tools, like the National Renewable Energy Laboratory's (NREL) Renewable Energy Atlas and Marine Energy Atlas, anyone anywhere in the world can access the data they need to start planning their clean energy future. Now, new features in the Marine Energy Atlas make it even easier for communities to decide how and ...

In truth, from the formal point of view this self-contained system of fundamental rights represents an augmentation of the autonomy of Macao as compared with the situation prior to 1999, since before the transfer of sovereignty, the system relied mostly on the importation of norms and principles from the Portuguese

Macao atlas energy autonomy

As Scheer [42] argues in his book "Energy Autonomy: the economic, social and technological case for renewable energy": "...energy autonomy is not just the outcome of a shift to renewable energy; it is, at the same time, the hard core of a practical strategy: autonomous initiatives by individuals, organizations, businesses, cities and states ...

"The non-gaming industries accounted for over 60 percent of Macao's GDP last year, meaning that we're shifting away from gaming-dominant economy," said Ho Iat-seng, chief executive of the Macao Special Administrative Region. Ho said the "one country, two systems" principle gives Macao "a high degree of autonomy" to govern itself. And Macao has ...
